

AI Governance Readiness Assessment

Is Your Business Ready for the Risks of AI?

A 10-day fixed-fee service to assess your AI compliance, risk posture, and governance readiness.

Why This Matters Now

AI adoption is accelerating, but new regulations like the **EU AI Act**, **ISO 42001**, and **NIST AI RMF** demand organizations to act fast and govern responsibly. Non-compliance means reputational risk, fines, and lost customer trust.

What You'll Get

- **AI Use Case Inventory** – Discover where and how AI is used across your organization
- **AI Risk Scorecard (10 pages)** – Risk heatmap across privacy, bias, security, and accountability
- **Governance Heatmap** – Assess your current maturity across AI governance domains
- **Top 5 Gaps + Quick Wins** – Prioritized remediation plan
- **1-Hour Executive Briefing** – Align leadership on key next steps

Optional Add-On:

AI Governance Policy Toolkit based on ISO 42001: Templates for AI risk, third-party use, bias prevention, and accountability policies.

Pricing

Plan	What You Get	Price
Starter	Assessment + Scorecard + Briefing	\$997
Pro	+ AI Governance Policy Toolkit	\$1,497
Elite	+ Custom Controls Matrix + Virtual Workshop	\$2,497

How It Works

1. Kickoff Call & Intake Form
2. 10-Day Review & Analysis

3. Delivery of Reports + Executive Briefing
4. Optional: Policy Toolkit & Workshop

Who This Is For

- Founders, CTOs, CISOs, Legal Counsel
- Companies with <1,000 employees
- Orgs using or planning to use AI tools (LLMs, chatbots, decision engines)
